TITLE : TRANSFER TOOL

ABSTRACT : **PROBLEM TO BE SOLVED:** To provide a transfer tool wherein capacity of a transfer medium is not decreased and there exists no possibility of damaging operability and downsizing is attempted and it can be stored with other writing tools and stationeries in a pencil case.

SOLUTION: A transfer tool 1 is provided with a delivery shaft 3 (a delivery shaft part) which is pivoted in a box body 2 and on which a belt-like film F on which a coating film P (a transfer medium) is stuck is wound, a transfer roller 5 which is pivoted in parallel to the delivering shaft 3 on an opening 2a formed on one end part of the box body 2 and delivers a belt-like film F stuck with the coating film P from the delivery shaft 3 and transfers the coating film P on a body to be transferred and delivers the belt-like film F into the box body 2 and a wind-up shaft 4 (a wind-up shaft part) which is pivoted in parallel to the delivery shaft 3 and the transfer roller 5 and winds up the belt-like film F passing through the transfer roller 5 and a belt 6 is hung on the delivery shaft 3 and the wind-up shaft 4 so as to be crossed.
